Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 237 is rejected under 35 U.S.C. 102(e) as being anticipated by Foerster et al. (Pub. No. 2001/0034528).
3. Foerster et al. (hereinafter Foerster) teaches a delivery device for delivering a marking device to a target site, said delivery device comprising: an elongate member (54a-b) having a distal portion and a proximal portion (See Figs. 9-16), said distal portion of said elongate member configured to seat the marking device and advance with said distal portion to the target site (0002; 0047; 0054); and an ejector (ref. 98, 98c-d) coupled to said elongate member, said ejector configured to disengage a preloaded, expandable and resilient marking device from said distal portion (0018-0020; 0047-0056; 0059). Foerster further teaches that the marking device comprises a compressed resilient material (0048; 0051; 0058-0060); wherein the marking device is a suture material (Here: the Examiner notes that the present specification provides a plurality of inclusive definitions of suture materials. Therefore, any material or material property

capable of being used as a suture would read on this particular claim limitation) carrying a metallic marker (0071-0073; Figs. 13-16).

Response to Arguments

4. Applicant's arguments with respect to claims 84-118, 120-125, 127-129, 172-197, 232, 233 and 235-236 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
